

XYZ I330 TRAINER

XYZ I340 TRAINER

Despite the advances of 'easy to use' CNC systems we still offer a complete range of Manual Machine Tools which are very popular with Training Organisations and Maintenance Shops etc. For those who have to operate within a more commercially competitive environment please see the entry level ProtoTRAK® RLX system and machines on pages 27 to 32 of the XYZ 2024/25 Catalogue.

In the last 40 years XYZ have installed over 10,000 manual Lathes and Turret Mills in the UK, which have become synonymous with quality, reliability and value for money.

All XYZ manual machines are built of solid ribbed cast iron to provide unrivalled rigidity and stability and all are fitted with European bearings and electrical components to full CE approval.
